Carter Process Control GmbH offers superior quality replacement parts for control valves. These parts are engineered to provide outstanding performance and extended service life.

We guarantee that our replacement/re-engineered parts meet or exceed the quality of the Original Equipment Manufacturer (OEM) and are interchangeable in form, fit and function.

Why Choose CPC GmbH Spare Parts?

- **ISO Certified**—Every CPC part is manufactured in ISO certified facilities and backed by a full 12 months international warranty
- **Fast Response**—Our unique methods and in house design, engineering and innovative programs allow for rapid turnaround of normally long lead items.
- **Over 30 Years**— with more than 30 years experience in the control valve market our technical knowledge is a major factor to our continued success.
- **Low Cost**— Our unique methods and simplified organisation allow for massive cost savings to be passed directly to our customers.
- **Stock**—CPC holds large quantities in stock of all Nozzles and associated soft goods ready for immediate delivery.
SPRAY NOZZLE DESIGN

Water Injection is done through spring loaded variable orifice type nozzles which ensures small water droplets and best water distribution under all conditions.

To achieve the best spray pattern and the smallest water drops the correct design has to be applied.

A spring loaded variable orifice nozzle is provided by CPC to guarantee the best atomization at any flow condition.

CPC developed this product under intense testing to ensure the best solution and most highly accurate spray pattern for most efficient spraying.
WHAT MAKES US DIFFERENT?

All CPC Nozzles are Direct replacements for the OEM and are produced from identical materials

CPC Nozzle benefits:

- 100% identical replacement
- All sizes are stocked and ready to ship
- Commonality of spare parts (also stocked)
- Cost benefits against OEM
- Best material as standard

All sizes available for immediate delivery. Contact the sales office to receive a fast and cost effective quote by any of the below methods:

“Severe Service Control Valve Trim Solutions”

**Quality Policy**

“We will achieve customer satisfaction by continually improving processes products and services to ensure they consistently meet or exceed customer requirements”

Carter Process Control GmbH guarantees that all replacement parts meet or exceed the quality of the Original Equipment Manufacturer (OEM) and are interchangeable in form, fit and function, but provide cost effectiveness by being more competitive against the OEM price.

Our quality system is subjected to the most rigorous QC inspection and testing which begins with only providing the most superior mill certified materials assuring you that your Carter Process Control GmbH parts are manufactured to the highest standards. All sourcing and manufacture comes from qualified sources to again ensure the highest possible Standards.
